

DATA SHEET

MEMOLUB® Lubricant Cartridge Sizes

When reordering the MEMOLUB® replacement kits we are often asked “How do I know what size cartridge I have?” Well here is a couple easy ways to know.

Option 1

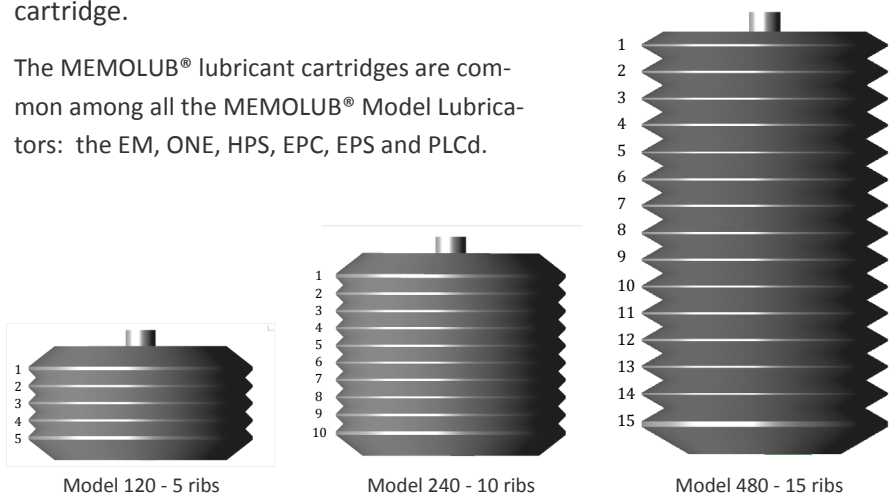

On the clear outer housing each MEMOLUB® lubricator is labeled with the appropriate Model number depicting the volume of lubricant in the cartridge.

Option 2

Count the number of “Ribs” of the bellows cartridge.

The MEMOLUB® lubricant cartridges are common among all the MEMOLUB® Model Lubricators: the EM, ONE, HPS, EPC, EPS and PLCd.
